

**International conference**  
**on**  
***Building Back Better and Greener with Sustainable Hydropower***  
**Sep 12-13, 2022 in Kathmandu, Nepal.**

Nepal's transition to green, resilient, and inclusive development for sustainable recovery, growth and jobs as a national policy by the Government of Nepal (presented at COP26) has a special place for sustainable hydropower. If done correctly, this transition will lead to an economic recovery that prioritizes green opportunities which will expand prospects for employment. Nepal has a technically viable capability to generate 42,000 MW of electricity from hydro, 2,100 MW from solar and 3,000 MW from wind. Achieving a balance between hydropower, solar power, and wind power in our electricity grid by using our full potential will allow Nepal to become self-sufficient in electricity and create export possibilities. Utilizing only 20% of the country's economically viable hydropower potential would reduce the negative impact of erratic oil price on the economy and is estimated to increase real Gross Domestic Product (GDP) by 87% by 2030.<sup>1</sup>

The Conference will focus on four themes - Policy, Power Trade, Private Sector and Sustainability Standards in partnership with major stakeholders including the Government of Nepal, MDBs, aid organizations, NGOs, consulting firms, contractors and manufacturers.

The possible sponsorship categories are as follows:

1. Title Sponsor (1 persons)	-	Rs. 1500,000.00 (Free Conference Entry for 8 persons)
2. Platinum Sponsor (1 persons)	-	Rs. 1000,000.00 (Free Conference Entry for 6 persons)
3. Gold Sponsor (1 persons)	-	Rs. 800,000.00 (Free Conference Entry for 4 persons)
4. Silver Sponsors (2 persons)	-	Rs. 500,000.00 (Free Conference Entry for 3 persons)
5. Supporting Sponsors (Multiple persons)	-	Rs. 300,000.00 (Free Conference Entry for 2 persons)
6. Institutional Participants	-	Rs. 25,000.00
7. Individual Participants	-	Rs. 15,000.00

We expect support from your esteemed organization with your valuable sponsorship for this event. Please find attached a draft of the program and estimates for your reference. Please note that at this stage we received confirmation of main sponsorship and participation from World Bank, ADB, EIB and USAID.

We look forward to a positive response at earliest.
